Under the OSHA Hazard Communication Standard (29 CFR 1910.1200), this product does not contain any components classified for health hazards above the relevant cut off value.

SECTION 4**FIRST-AID MEASURES**

Eye Contact:	Immediately flush eye(s) with plenty of water, occasionally lifting the upper and lower eyelids and continue to rinse for at least 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Get medical attention if irritation persists.
Inhalation:	Move to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
Skin Contact:	Flush contaminated skin with plenty of soap and water. Contract a physician if rash or severe irritation develops.
Ingestion:	Wash out mouth with water. Remove dentures if any. Move victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, have them drink plenty of water. Do NOT induce vomiting unless directed to do so by medical personnel. Get medical attention immediately.
Most Important Symptoms and Effects, Both Acute and Delayed:	No significant symptoms are expected due to the non-classification of the product.
Protection of First-Aiders:	No action shall be taken involving any personal risk or without suitable training. Avoid contact with skin and eyes. Use personal protective equipment as required (see Section 8). Show this Safety Data Sheet to the doctor in attendance.
Notes to Physician:	Treat symptomatically.

SECTION 5**FIRE-FIGHTING MEASURES**

Suitable Extinguishing Media:	Water spray, foam, or dry powder.
Specific Precautionary Methods:	No information known.
Hazardous Thermal Decomposition Products:	No specific hazards known.

Special Protective Actions for Fire-Fighters: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Product itself is non-combustible; fire extinguishing method of surrounding areas must be considered.

Special Protective Equipment For Firefighters: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

SECTION 6**ACCIDENTAL RELEASE MEASURES**

For Non-Emergency Personnel: No action shall be taken involving any personal risk or without suitable training. Keep unnecessary and unprotected personnel from entering. Avoid contact with eyes and skin. Use personnel protective equipment as required. No smoking.

For Emergency Responders: If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in “For Non-Emergency Personnel”.

Environmental Precautions: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Cleanup: Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite, or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). For larger spills, pump off product.

Regulatory Requirements: Follow applicable OSHA regulations (29 CFR 1940.120).

SECTION 7**HANDLING AND STORAGE**

Protective Measures: Put on appropriate personal protective equipment (see Section 8).

Advice on General Occupational Hygiene: Eating, drinking, and smoking should be prohibited in areas where this material is handled, stored, and processed. Workers should wash hands and face before eating, drinking, and smoking.

Storage Requirements: Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials and heat/ignition sources, and food and drink. Store protected against freezing or frost. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be kept upright to prevent leakage. Do not store in unlabeled containers. Keep out of the reach of children.

SECTION 8**EXPOSURE CONTROLS/PERSONAL PROTECTION**

No occupational exposure limits known.

Engineering Measures: Ensure adequate ventilation.

Hygiene Measures: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Ensure that eyewash stations and safety showers are close to the workstation location.

Personal Protective Equipment:**Respiratory Protection**

If breathing irritation occurs, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

Hand Protection

Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

Eye/Face Protection

Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes and mists. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

Skin and Body Protection

Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. Wearing an apron can aid in preventing skin contact with the material.
